Affirmative Marketing Policy (Equal Housing Opportunity)

STATEMENT

This Affirmative Marketing Policy (AMP) is developed for use in HUD funded and City supported housing projects using HOME Program regulations as its safe harbor, including but not limited to 24 CFR 92.351, of the U.S. Department of Housing and Urban Development (HUD). The Policy is a commitment of the Administration, Legislative body, Department of Development (DOD), Fair Housing Office staff, and all applicable Owner/Developers (Participant) receiving housing assistance from the City of Canton. The Participant shares responsibility with the City of Canton (City) of informing the public about the Federal Fair Housing laws and Canton Fair Housing Code 515, soliciting eligible persons without regard to race, religion, color, ancestry, national origin, sex, disability, familial status, military status, sexual orientation or gender identity, or source of income into the affordable housing market and evaluating the effectiveness of these marketing efforts. This AMP is documented and maintained in the Department of Development (DOD) files, and shall be included in all federally funded and City supported housing development project proposals and agreements. The Participant is held to the terms of the AMP by the requirements in the applicable housing project agreement.

PURPOSE

In furtherance of the City of Canton's commitment to non-discrimination and equal housing opportunity, the DOD established procedures to help ensure units constructed or rehabilitated under this policy are affirmatively marketed. The AMP of the DOD ensures that individuals who normally might not apply for available housing units because they are socially and/or economically disadvantaged:

- be informed of available units
- be encouraged to apply
- have an equal opportunity to rent/own units

The City will provide copies of brochures to Participants with units that are in their affordability period whenever the brochures are updated.

If the City finds that specific groups are represented, particularly Hispanics, African Americans, Asians/Pacific Islanders, American Indians, persons with disabilities and women, the City will assume that the Affirmative Marketing procedures were effective. If one or more groups are not represented within the context of existing neighborhood composition, the City will review its procedures to determine what changes, if any, might be made to make the Affirmative Marketing efforts more effective.
