**MINORITY CONTRACT PROVISIONS: MINORITY BUSINESS
ENTERPRISE UTILIZATION COMMITMENT**

A. The Bidder agrees to expend at least \$ _____ of the contract if awarded for minority business enterprises. For purposes of this pledge, the term "minority business enterprise" means a business at least 50 percent of which is owned by minority group members or, in case of a publicly owned business, at least 51 percent of the stock of which is owned by minority group members. For the purposes of the preceding sentence, minority members are citizens of the United States who are African Americans, Spanish-Speaking, Orientals, American Indians, Eskimos, Aleuts or Females. Minority business enterprises may be employed as construction subcontractors or as vendors or suppliers. The Bidder must indicate the minority business enterprises it intends to utilize in this document as follows:

NAME AND ADDRESS MINORITY FIRMS	NATURE OF PARTICIPATION	DOLLAR VALUE OF OF PARTICIPATION
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

Total Bid Amount: _____ Total: _____

Percentage of Minority Participation _____ %

- B. The Bidder agrees to furnish implementation reports to indicate the minority business enterprises which it has or intends to utilize. The first report is due five (5) days after notification to the lowest and best bidder. The second report is due at 40% completion.

- C. It is the goal of the City of Canton that at least ten percent (10%) of the total of all contracts be expended for bonafide minority business enterprises.

- D. If the ten percent (10%) minority business utilization cannot be met, a waiver can be granted by the Board of Control upon recommendation of the Director of Public Service and/or Safety. To justify a waiver, it must be shown that every feasible attempt has been made to comply, and it must be demonstrated that sufficient, relevant, qualified minority business enterprises (which can perform subcontracts or furnish supplies) are unavailable in the market area of the project to enable meeting the ten percent (10%) minority business enterprise goal.

- E. Failure to comply with the Minority Business Enterprise Utilization Commitment will not be grounds for the forfeiture of a bid bond so long as a "best effort" approach to comply with such commitment can be demonstrated. If such compliance cannot be obtained, the bidder shall furnish written evidence to justify that he has made "best efforts" to comply with the Minority Business Enterprise Assistance Program. A representative of the City of Canton will monitor and determine whether or not a good faith effort to comply with the Minority Business Enterprise Commitment has been made.

- F. In light of the above, the Board of Control will still award the contract to the lowest and best bidder. Breach of this commitment constitutes breach of the Bidder's contract, if awarded.

- G. The undersigned hereby certifies that he or she has read the terms of the commitment and is authorized to bind the Bidder to the commitment herein set forth.

ORDINANCE NO. 86/2009

AN ORDINANCE AMENDING CHAPTER 105, CONTRACTS, OF TITLE ONE - GENERAL PROVISIONS OF THE CODIFIED ORDINANCES OF THE CITY OF CANTON

WHEREAS, throughout the United States, private and public construction users have regularly utilized and required project labor agreements to establish uniform terms and conditions of employment for contractors and craft construction employees; and, project labor agreements have been shown to provide an effective mechanism for overall construction project staffing, planning and labor stability on job sites; and

WHEREAS, uniformity of terms and conditions and efficient administration of public works is especially needed given the current levels of unemployment generally, and more profoundly in the construction industry; and

WHEREAS, the City has determined that the continued growth and health of the construction industry in the city of Canton and Stark County is vital to the growth and stability of the general economy of the city of Canton; and

WHEREAS, project labor agreements are legal under federal and Ohio law, have been successfully utilized on a large number of major public improvement projects throughout the United States, and neither union nor non-union contractors and employees are precluded from competitively bidding or working under project labor agreements; and

WHEREAS, in order to provide for project labor agreements with the East Central Ohio Building and Construction Trades Council, AFL-CIO and its affiliated local unions for construction projects undertaken by the city of Canton, amendments are required to Chapter 105, Contracts, of the Codified Ordinances;

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF CANTON, STATE OF OHIO, THAT:

Section 1. Section 105.01, Procedures to Determine Lowest and Best Bid for Construction of Public Improvements, of the Codified Ordinances is amended to read as follows:

105.01 CONSTRUCTION CONTRACTS.

(a) Definitions.

For purposes of this chapter, the following definitions shall apply:

(1) "Public Contract" or "Construction Project" means either of the following:

****AMENDED**

\$100,000.00

A. Any new construction of any public improvement, the total overall project cost of which is estimated to be more than ~~\$50,000.00~~ and performed by other than full-time employees of the City who have completed their probationary periods in the classified service. Determination of project cost shall be subject to the biennial increase or decrease provided for by Ohio R.C. 4115.034; or

B. Any construction, reconstruction, improvement, enlargement, renovation, alteration, repair, painting or decorating of any public improvement, which is estimated to be more than \$20,000.00 and performed by other than full-time employees of the City who have completed their probationary periods in the classified service. Determination of project cost shall be subject to the biennial increase or decrease provided for by Ohio R.C. 4115.034.

(2) "Public improvement" includes all buildings, roads, streets, alleys, sewers, ditches, sewage disposal plants, water works and all other structures or works constructed by the City or by any person or entity, who, pursuant to a contract with the City, constructs any public improvement for the City. A public improvement shall be considered as one project where a review of the nature, scope and objective, as well as the interrelationship of time and purpose of the project, evidences the undertaking of a single public improvement pursuant to Ohio R.C. 4115.033 and O.A.C. 4101:9-4-17.

(3) "Local employee" means:

A. A person residing within the City of Canton or Stark County;

- B. A person working for a contractor or from a pool of labor located within the City of Canton or Stark County; or

- (2) If the Mayor, or his designee, determines that a project labor agreement will serve the goals set forth above, the Mayor, or his designee, shall negotiate a project labor agreement with the East Central Ohio Building and Construction Trades Council and its affiliated local unions, or said Council's successor.
- (3) The bidding documents for each such construction project shall contain a written provision requiring the successful bidder to comply with and adhere to all of the provisions of any project labor agreement negotiated by the Mayor for the project.
- (4) The City shall not thereafter enter into any contract with the successful bidder for the construction of any such city building unless the contract contains a provision requiring the successful bidder, and all of the bidder's contractors and subcontractors, to comply with and adhere to the provisions of the negotiated project labor agreement.
- (5) If the Mayor, or his designee, with respect to any proposed construction project, determines that a project labor agreement will not serve the goals set forth in subsection (b)(1), the Mayor shall submit a written report to the Clerk of Council that shall state the reasons for concluding that a project labor agreement for the project will not substantially further the purposes of this section.

PRIMARY - BACKWATER VALVE SPECIFICATION (BID ITEM NO. 1)

Application

The purpose of this specification is to secure for the Applicant a device that can prevent damage to private property caused when sewage from a public sewer rises to a level such that it causes a backwater condition in a private dwelling sewer. A detailed list of requirements follows.

General Requirements

- Must meet the requirements of ANSI/ASME A112.14.1, "Backwater Valves", latest edition.
- Shall be fully mechanical and not rely on electricity for operation.
- Will allow full capacity flow through the dwelling sewer with no obstructions to trap debris when not in use.
- Shall have stainless steel gate capable of cutting through normal sewage debris.
- Must provide positive seal with no detectable leakage up to 45 feet of head pressure.
- Shall activate and reset automatically without the need for manual operation.
- Will have a visual and/or audible alarm to indicate when unit is in operation.
- Must be installed in the dwelling per manufacturer's recommendations and tested to ensure proper operation.
- FLAPPER STYLE VALVES AND PLASTIC VALVES WILL NOT BE PERMITTED.

Material Requirements

- Gate – Shall be manufactured from type 304 stainless steel with full diameter opening and integral closing stopper.
- Body – Consists of two cast iron (ASTM A48, Class 30) halves designed to bolt together to enclose gate. Both sections shall be equipped with barrels suitable for mechanical coupling to upstream and downstream sections of pipe. Downstream fitting will be equipped with port to allow surcharged water from public sewer to enter bellows. There shall be a continuous groove around the circumference of the opening to accept an O-ring, which shall seal against the gate.
- Spacer – Stainless steel gasket shall be placed between the two body halves to permit the thinner gate to slide with the two halves of the body.
- Bellows – Must be flexible PVC cylinder.
- Counterweight Plate, Plate Weight Holder, and Rod – Counterweight plate to be affixed to the top of the bellows using a threaded rod with nuts. The nuts will compress the top surface of the bellows between the counterweight plate on top and the plate weight holder on the bottom. The rod will be connected to the top of the gate. Bellows counterweight plate shall be made of cast iron.
- Clamping Ring – Shall clamp the bottom skirt of the bellows to the circumference of the body, forming a watertight seal. This seal must prevent wastewater which enters the bellows through the downstream port under surcharge conditions from leaking out of the bellows.
- Cover – Polyethylene cylinder which shall be positioned over the bellows to protect it and constrain its expansion under surcharge conditions.
- Opening Stopper – Stainless angle tabs must be affixed to the top of the body to limit the fully open position of the gate.
