**MEDIA ADVISORY: Canton Water Department Fire Hydrant Flushing  
in Perry Township**

CANTON, Ohio – The Canton Water Department will be flushing fire hydrants in the Perry Township area for approximately 2 weeks, beginning Tuesday, October 17. The Canton Water Department flushes hydrants in an effort to reduce the amount of iron sediment in the pipe lines and to maintain or improve water quality to our customers.

The following general areas will be flushed:

1. The area bordered on the north by 12<sup>th</sup> Street NW, on the south by 15<sup>th</sup> Street SW, on the east by Whipple Avenue SW, and on the west by Perry Drive NW.
2. The neighborhood south of Canton Centre Plaza bordered on the north by 11<sup>th</sup> Street SW, on the south by 13<sup>th</sup> Street SW, on the east by Poplar Avenue SW, and on the west by Whipple Ave SW.

Canton Water Department customers in the general areas referenced above may experience temporary pressure fluctuations and/or discolored water during this fire hydrant flushing. We apologize for any inconvenience, and we thank you for your patience.

For more information, contact Water Dispatch at 330-489-3315.
