SUMMER/SEASONAL PROGRAM

Each year, the City of Canton has opportunities for seasonal employment.

The majority of these positions are labor-intensive, involving tasks such as trash removal, mowing, weed-eating, and general labor. Most are outdoors.

A small number of positions may be available for clerical or administrative work. These positions involve tasks such as answering phones, typing and filing.

Budgets dictate how many positions are available.

Interested candidates should complete applications and submit them along with resumes or letters of interest to the Department of Human Resources, 4th Floor of City Hall.

All candidates selected for these positions will be subject to drug screens.
