

## **Inclement Weather Policy**

Canton Parks & Recreation monitors weather conditions prior to, and during all practices and games. For weather conditions occurring prior to game and practice times, we will try to notify everyone as soon as a decision has been made to play, postpone and/or cancel games and practices. For weather that causes field conditions to deteriorate or is forecasted to create a weather related danger, the decision to postpone or cancel practices and games will be made at or before that particular practice and/or game. Each coach has the responsibility to notify their players and parents. Canton Parks & Recreation uses the following methods of notification:

- Home Page of Canton Parks & Recreation website
- **Canton Parks & Recreation Facebook Group**
- E-mails to coaches
- Text Messaging to coaches and parents

Each individual is ultimately responsible for his/her personal safety and has the right to take appropriate action when threatened by bad weather. Adults must take responsibility for the safety of their children during weather events.

Adults and parents must take responsibility for the safety of children in their care. Canton Parks & Recreation recommends everyone to take shelter in a safe place or location designed to protect from weather related dangers.
