

CANTON PARKS MASTER PLAN

The **City of Canton Park Commission** recognizes the value parks, recreational opportunities, and open spaces provide for the physical, social, and environmental well-being of the City of Canton and its residents. In order to sustain the quality of the city's parks and continue to facilitate the public and their recreational needs, the Canton Park Commission is developing a 2014 Master Plan. The plan will outline the future of Canton's 60 plus parks and open spaces and define objectives to improve aesthetic and economic value, open space, and necessary enhancements to sustain the parks for future needs.

Your attendance is requested at **ONE** of the five public meetings. The first meeting's scope will focus on city-wide topics and objectives of the parks. The remaining four meetings will be broken into the city's quadrants to discuss specific park issues. Your feedback is vital to help identify the community's needs and preferences as we plan for the future of Canton's parks. Each meeting will use an Open House format that will begin with a short presentation, followed by an opportunity for your comments and questions to be heard.

Please mark your calendar to attend the meeting in your area. Meetings will begin promptly at **6:00 pm**. Use this opportunity for your voice to help shape the future of Canton's Parks!

Please also take time to fill out our survey!
