Request for Information Response 1:

Question: Is the Park Commission going to be contracting for an asbestos and hazardous materials survey as part of this RFQ or is that something that you would contract for separately?

Answer: At this time, the Park Commission is only looking at qualifications of interested firms. The firm selected as a result of this RFQ will need to make the determination as to whether or not an asbestos and hazardous survey is necessary.

Request for Information Response 2:

Question: Could the scope include a reconstruction of the roof or is the intent to renovate the existing structure as is?

Answer: At this time, the Park Commission is only looking at qualifications of interested firms. The project scope will be determined by the selected firm. That said, the Park Commission believes that the existing structure will need to be removed and rebuilt. However, this determination is to be made by the firm selected as a result of this RFQ.
